

FESTIGEEK LAN PARTY 2017
5th edition – sponsorship proposal

The main strengths of an association and his team, are its values and the meaning it gives to its actions. By putting those values at the center of its projects, FestiGeek wants to build over time a strong and lasting partnership based on integrated offers, fun and open to the widest public possible.

The « geek » universe currently lives in Switerland an expansion never seen before. The growing interest of an increasingly important part of the population in different areas included in this notion of "geek" has a great development potential, the willingness of members of the association being increased by the numerous challenges being offered to it.

The train is on and FestiGeek will undoubtedly be part of the leading waggons in the Romandy landscape, even nation wide.

Romain Sandoz
Président FestiGeek

VALUES & COMMITMENTS

Willingness to expand

It is because of this willingness which drives the members since the beginning, that FestiGeek could achieve multiples challenges which built its development.

Performance spirit

The will of the members to perform brings them to target the best solutions and a strong quality of work, justifying the great brand image of the association.

Multi-field culture

The junction of multiple hard skills inside FestiGeek offers a global vision on different themes, allowing the elaboration of adapted solutions in every specific situation.

Formation

FestiGeek offers the possibility to HEIG-VD students to put into practice their academic knowledges, proposing them a useful professional experience.

Innovation

One of the association purposes is to introduce to a large public the new technologies in gaming and digital culture.

Sustainability

The will of FestiGeek is to implement sustainable events, based on a clear, stable and long-term associative structure.

BE PART OF THE LEADING CAR

The video game univers enjoys an exponential growth for several years.

Formerly, a video game machine was excessively expensive and suffered a denigrated reputation from an important part of the population.

But today, the activities are clearly increasing and spreading across a wide part of the society.

The video game market is not a niche market anymore but now represents a line of business of more than 90 billions of dollars in 2015.

Abroad, the number of LAN Parties reached such a proportion than the world championship final of League of Legends reunited more than 36 millions of viewers worldwide.

In Switzerland, we are only living the beginning of this expansion. The number of tournament organizers and videogames teams are growing, the gaming strucures are getting more professionals and beginning to attract economical partners from many horizons.

Betting today on these events provides a great way to be under the spotlight... so why not you ?

Evolution of attendance

Since 2013, when everything needed to be done, to the 4th edition in 2016 for which activities development and visitors reception were a main point, the FestiGeek LAN Party enjoys today a reputation of quality, dynamism and professionalism .

The new Committee engages to continue what former ones achieved and to open its activities to to an always wider segment of the population.

OTHER EVENTS

FestiGeek is currently developing new projects at HEIG-VD and Yverdon-les-Bains.

Sponsors would benefit from visibility on these new events at no additional cost.

CUSTOMIZATION

The packages presented above are standardized formats based on financial sponsorship. It is also possible to collaborate with FestiGeek by providing support in hardware and manufactured products. The value on sale of the goods brought in makes it possible to place each sponsorship in one of the categories detailed above.

The packages offered and the related amounts may not be appropriate for your company. A negotiation on a case-by-case basis is possible according to the contributions of the company and the counter-performance provided by FestiGeek.

In addition, any donation in cash or material is welcome.
